

Abdur Rahim

Tangail, Dhaka, Bangladesh

00arrahim@gmail.com — +880 01825014273 — GitHub: github.com/rahi56

Profile

Computer Science student with strong interest in software development, backend systems, and problem solving. Experienced in Java, Python, and web frameworks like Django and Spring Boot. Active in competitive programming and continuously improving algorithms and system design skills.

Technical Skills

Languages: C, C++, Java, Python

Backend: Django, Spring Boot

Database: MySQL

Web: HTML, CSS, JavaScript, Bootstrap

Tools: Git, GitHub, IntelliJ IDEA, VS Code

Core: Data Structures, Algorithms, OOP, DBMS

Competitive Programming:

- Solved 100+ problems on LeetCode
- Strong practice in greedy, recursion, sorting, and basic graph problems

Competitive Programming & Contests

- Participated in NDUB IUPC (Inter University Programming Contest)
- Participated in IDPC (Intra Department Programming Contest)
- Regular problem solver in Codeforces and LeetCode
- Also active on other competitive programming platforms such as HackerRank, AtCoder, and CodeChef

Projects

Ticket Booking System (JavaFX) 2025

- Desktop application built using JavaFX
- Implemented login system, booking logic, and UI design
- Applied OOP principles and structured design

Web Project (KiteGlobalKG) 2025

- Responsive website using HTML, CSS, Bootstrap
- Built navigation, carousel, and service layout

Portfolio Website 2024

- Personal portfolio to showcase skills and projects
- Hosted online and made fully responsive
- Live Link: <https://your-portfolio-link.com>

Education

BSc in ICT 2023 – Present
Mawlana Bhasani Science and Technology University

Higher Secondary Certificate (HSC) 2021
Safiuddin Sarker Academy College
